9.5 Moisture-proof of Strain Gage

1 Foreword

TB/T 3126-2005 was issued by National Railway Administration on 19 August 2005.

The TB/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 8 pages in English translation.

2 Scope Preview

This standard specifies the railway station interlocking equipment unit console computer technical requirements, test methods, inspection rules, marking, packaging, transportation and storage. This standard applies to the console's design, manufacturing and testing, unit type indicates that the disc should refer to the execution.

TB/T 3126-2005 falls under ICS 45.020; 93.100, in the field of railway engineering.

This catalogue holds 457 other TB/T standards in that field.

In this catalogue, TB/T standards carry edition years from 1973 to 2026.

3 About this standard

Sector: Railway & Train Industry Standard (Recommended)

Issued by: National Railway Administration

English translation: about 8 pages (approximate)

Chinese original: about 10,158 characters

4 Related standards
