## 1 Foreword

TB/T 3127-2005 was issued by National Railway Administration on 19 August 2005.

The TB/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 8 pages in English translation.

## 2 Scope Preview

This standard specifies the railway switch lock's terminology, product classification, technical requirements, test methods, inspection rules and signs, packaging, transportation and storage. This standard applies to hook lock the design, manufacture, inspection and maintenance.
