What this standard covers

This standard specifies the test conditions, test methods, test parameters and test results for the test of the traction thermal performance of diesel locomotives on a fixed rolling test stand. This standard applies to diesel-powered power transmission or hydraulic drive diesel locomotives and internal combustion vehicles (hereinafter referred to as locomotives).

Document data

International classification (ICS): 45.060.10.

Chinese classification (CCS): S40.

Estimated length of the Chinese original: 10,195 words.

Supersedes the earlier edition TB/T 3166-2007.
