What this standard covers

This standard specifies the product classification, technical requirements, inspection methods, inspection rules, marking, packaging, transportation and storage of the choke transformer midpoint connection plate (hereinafter referred to as "connecting plate"). This standard is applicable to the design, manufacture and inspection of connection plates connected between the two choke transformers in the electrified section track circuit.

Document data

Chinese classification (CCS): S61.

Estimated length of the Chinese original: 7,767 words.

Supersedes the earlier edition TB/T 3205.3-2008.
