What this standard covers

This standard specifies the terms and definitions, classification, rated parameters and operating conditions, technical requirements, test methods, inspection rules and signs, packaging, transportation and storage of rolling metal oxide surge arresters for rolling stock. This standard applies to the use of a Gap-free metal oxide arrester (hereinafter referred to as "arrester") for locomotive vehicles and EMUs designed to limit AC overvoltages.

Document data

International classification (ICS): 45.060.01.

Chinese classification (CCS): S30.

Estimated length of the Chinese original: 20,224 words.
