Foreword

This standard was drafted in accordance with the rules given in GB/T 1.1-2009.

This standard is proposed and managed by the Ministry of Land and Resources of the People's Republic of China.

This standard was drafted. Land and Resources Ministry of land remediation center, Ministry of Land and Cultivated Land Protection Division.

1 Scope

This standard specifies the map content of the land remediation project, the expression elements (layout, schematics, drawings, layering of electronic maps and Naming rules) and general requirements.

This standard applies to the status of land remediation plans, plans, engineering drawings, the completion of the drawing.

2 Normative references

The following documents for the application of this document is essential. For dated references, only the dated version applies to this article Pieces. For undated references, the

latest edition (including all amendments) applies to this document.
