Table of Contents

1 General Provisions 1
1.1 Purpose
1.2 Hyperbaric oxygen chamber definition
1.3 Application scope
1.3.1 Medical hyperbaric oxygen chamber
1.3.2 High-pressure chamber
1.4 Special requirements for application scope
1.4.1 Movable medical hyperbaric oxygen chamber
1.4.2 Hyperbaric oxygen chamber group
1.5 Inapplicable scope
1.6 Hyperbaric oxygen chamber scope definition
1.6.1 Chamber
1.6.2 Pressure regulating system
1.6.3 Breathing gas system
1.6.4 Electrical system
1.6.5 In-chamber environment conditioning system
1.6.6 Fire-fighting system
1.6.7 Safety accessories, safety protection devices and instruments
1.7 Relationship with technical standards and management systems
1.8 Treatment of inconsistency with the Regulation
1.9 Imported hyperbaric oxygen chamber
1.10 Supervision and management
2 Materials 5
2.1 Basic requirements
3 Design 7
4 Manufacturing 22
5 Installation 30
6 Transformation and Repair 35
7 Supervision and Inspection 38
8 Use Management 61
9 Periodic Inspection 71

1 Foreword

TSG 24-2015 was issued by State Administration for Market Regulation on 20 November 2015.

The Bureau of Safety Supervision of Special Equipment of the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China (hereinafter referred to as "AQSIQ") issued an assignment of drafting Supervision Regulation on Safety Technology for Hyperbaric Oxygen Chamber to China Special Equipment Inspection and Research Institute (hereinafter referred to as "CSEI") in April, 2010. In May 2010, the CSEI organized relevant experts to establish a drafting group and held the first meeting of the drafting team meeting in Beijing, discussing the drafting principles, key contents and main problems as well as structure (chapter) framework, making specific division of drafting and preparing a complete drafting schedule. The drafting team has convened multiple team meetings in Beijing, Wuhan and Yantai, and worked out Supervision Regulation on Safety Technology for Hyperbaric Oxygen Chamber (Exposure Draft) in November 2012 through discussion and modification. On July 23, 2013, the Bureau of Special Equipment solicited opinions from the grass-roots departments, units concerned, experts and citizens with No. 38 Document, ZHIJIANTEHAN [2013]. The drafting team studied and discussed the opinions solicited and finalized a draft for examination. In November 2013, the Bureau of Special Equipment submitted the draft for examination to the Special Equipment Safety Technical Committee, AQSIQ for deliberation, and the drafting team worked out the draft for approval after modification according to the deliberations. In November 2014, AQSIQ announced the Regulation to the World Trade Organization. On November 20, 2015, the Regulation is approved and issued by AQSIQ.

(6) Add basic safety requirements for the design service life, rated number of people in chamber, working medium quality as well as design, transformation and repair, safe use management, annual inspection and periodic inspection, etc. of hyperbaric oxygen chambers.

2 Scope Preview

TSG 24-2015 carries no ICS number and no Chinese Standard Classification code.

This catalogue holds 142 other TSG standards.

In this catalogue, TSG standards carry edition years from 2004 to 2025.

3 About this standard

Sector: Special Equipment

Issued by: State Administration for Market Regulation
