1 Foreword

WJ/T 9101-2022 was issued by Ministry of Industry and Information Technology on 30 September 2022 and has been in force since 1 April 2023.

The WJ/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard stipulates the basic principles, system construction procedures, hazard source identification, risk assessment and classification, risk classification control, effect verification and continuous improvement for the construction of safety risk classification control systems for enterprises producing and selling civilian explosives.

WJ/T 9101-2022 carries no ICS number and no Chinese Standard Classification code.
