### What this standard covers

This standard specifies the sanitary requirements for the design, quality, management and testing of centralized air-conditioning and ventilation systems in public places (hereinafter referred to as "centralized air-conditioning and ventilation systems"). This standard applies to centralized air conditioning and ventilation systems in public places. Central air conditioning and ventilation systems in other places shall be implemented accordingly.

### Document data

International classification (ICS): 91.140.30.

Chinese classification (CCS): C51.

Estimated length of the Chinese original: 9,935 words.

Supersedes the earlier edition WS 394-2012.
