Foreword

WS 599 "Basic Data Collection for Hospital People's Property Management" is divided into four parts.

- Part 1. Hospital Human Resource Management;
- Part 2. Hospital Finance and Cost Accounting Management;
- Part 3. Hospital material management;
- Part 4. Hospital fixed asset management.

This part is the second part of WS 599.

This part is drafted in accordance with the rules given in GB/T 1.1-2009.

This part is proposed by the National Health Standards Committee Information Standards Committee.

This section is mainly drafted by. General Hospital of the People's Liberation Army, Health Bureau of the Logistics Support Department of the Military Commission, and Fourth Military Medical University.

1 Scope

This part of WS 599 specifies the metadata attributes and data element attributes of the basic data set for hospital financial and costing management.

This section applies to the health information system related to hospital financial and cost accounting management.

2 Normative references

The following documents are indispensable for the application of this document. For dated references, only the dated version applies to this article.

Pieces. For undated references, the latest edition (including all amendments) applies to this document.

GB 3100 national unit system and its application WS 370 Health Information Basic Data Set Compilation Specification

3 Dataset metadata properties

According to WS 370, the dataset metadata attributes are shown in Table 1.

Table 1 Dataset Metadata Attributes

Metadata subset metadata item metadata value Identification information subset Data set name Basic data set for hospital personnel property management Part 2. Hospital finance and cost accounting management Data Set Identifier HDSC00.03 Data Set Issuer - Unit Name National Health Standards Committee Information Standards Professional Committee Keywords hospital, financial management, cost accounting Data set language Data Set Classification - Category Name Health Management - Hospital Operations Management Content information subset Data set summary Hospital budgets, income, accounting, settlement, medical insurance, and financial management related to financial and cost accounting management, Accounting and so on.

Data set feature data element budget item, settlement item, medical insurance category, price category, accounting category, etc.

4.1 Data Element Common Attributes

The data element common attributes are shown in Table 2.

Table 2 Data Element Common Attributes

Attribute type data element attribute name attribute value Identification class version V1.0
 Registration Authority National Health Standards Committee Information Standards
 Committee Relevant environmental health information Relational classification
 Management Information Authority National Health and Family Planning Commission
