1 Foreword

WS/T 10027-2024 was issued by National Health Commission on 11 October 2024 and has been in force since 1 March 2025.

The WS/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the diagnostic conditions for endemic goiter and the limits for determining the size of goiter. This standard is applicable to the determination, disease description, epidemiological research, monitoring, and evaluation of prevention and control effects of endemic goiter.

WS/T 10027-2024 falls under ICS 11.020, in the field of health care technology.

This catalogue holds 489 other WS/T standards in that field.

In this catalogue, WS/T standards carry edition years from 1996 to 2026.
