1 Foreword

WS/T 246-2005 was issued by National Health Commission on 8 May 2005 and has been in force since 1 December 2005.

The WS/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 10 pages in English translation.

2 Scope Preview

This standard specifies the reference method for the establishment of leukocyte count regarding sample collection, preparation of blood smears requirements, blood smear, blood smear examination of nucleated cells in steps of inspection personnel requirements and assessment and other content. This standard applies to leukocyte count to establish the reference method.

WS/T 246-2005 falls under ICS 11.02, in the field of health care technology.

This catalogue holds 489 other WS/T standards in that field.
