1 Foreword

WW/T 0130-2025 was issued by State Administration of Cultural Heritage on 20 January 2025 and has been in force since 1 June 2025.

The WW/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 16 pages in English translation.

2 Scope Preview

This standard specifies the applicability and effectiveness requirements of corrosion-inhibiting materials for iron relics, describes the evaluation methods for applicability and effectiveness, and gives the content and style of corrosion-inhibiting material test reports. This standard applies to the detection and evaluation of corrosion-inhibiting materials for iron relics during the research and development, production and application stages.

WW/T 0130-2025 falls under ICS 97.195; 71.040.30, in the field of domestic and commercial equipment, sport.

This catalogue holds 2 other WW/T standards in that field.

In this catalogue, WW/T standards carry edition years from 2007 to 2025.

3 About this standard

Issued by: State Administration of Cultural Heritage

English translation: about 16 pages

Chinese original: about 24,259 characters

4 Related standards

Standards on related subjects:

GB/T 12967.3-2022 - Test methods for anodic oxidation coatings and organic polymer coatings on aluminium and aluminium alloys - Part 3 : Salt spray test

GB/T 8754-2022 - Anodic oxidation coatings and organic polymer coatings on aluminium and aluminium alloys-Determination of electrical insulation

GB/T 2975-2018 - Steel and steel products - Location and preparation of samples and test pieces for mechanical testing

WW/T 0129-2025 - Requirements and evaluation methods for coating materials used for out-door metal cultural relics

5 Classification and status

International classification (ICS): 97.195; 71.040.30

Chinese Standard Classification (CCS): H 20

Prefix WW/T: recommended standard.
