What this standard covers

This standard specifies the classification, technical requirements, test methods, inspection rules, packaging, transportation, marking, storage and accompanying documents of terbium fluoride and dysprosium fluoride used in grain boundary diffusion sintered NdFeB permanent magnet materials. This standard is applicable to terbium fluoride and dysprosium fluoride prepared by chemical method, and then processed through grinding, screening and other processes, which are used to produce grain boundary diffusion sintered NdFeB permanent magnet materials.
