What this standard covers

This standard specifies the requirements, test methods, inspection rules, marking, packaging, transportation, storage and quality certificates of ultrafine dysprosium oxide powder. This standard is applicable to ultrafine dysprosium oxide powder with an average particle size of not more than 1 μm obtained by chemical method, which is used for the preparation of high-end electronic ceramic materials, magneto-optical storage materials and phosphor activators.

Document data

Chinese classification (CCS): H65.
