What this standard covers

This standard specifies a method for the determination of the oxide components of fifteen rare earth elements in yttrium-rich concentrates. This standard is applicable to the determination of the distribution of fifteen rare earth element oxides in yttrium-rich oxide concentrates, yttrium-rich carbonate concentrates, and yttrium-rich liquid concentrates.

Document data

International classification (ICS): 77.120.99.

Chinese classification (CCS): H14.

Estimated length of the Chinese original: 11,117 words.
