1 Foreword

XF/T 3005-2020 was issued by Ministry of Emergency Management on 10 November 2020 and has been in force since 1 May 2021.

It replaces the earlier edition NY/T 126-1989.

The XF/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the content, procedures and methods of fire safety assessment for agencies, organizations, enterprises, and institutions. This standard applies to the fire safety assessment of government agencies, organizations, enterprises, and institutions (hereinafter referred to as units) by fire technical service organizations. The self-fire safety assessment carried out by the unit can be implemented by reference. This standard does not apply to the fire safety assessment of industrial production processes and facilities.
