1 Foreword

XF/T 3013-2020 was issued by Ministry of Emergency Management on 10 November 2020 and has been in force since 1 May 2021.

It replaces the earlier edition NY/T 1412-2007.

The XF/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the commonly used marking and drawing requirements for national comprehensive fire rescue teams. This standard is applicable to the development and application of common labeling operations and related graphics systems for national comprehensive fire rescue teams. Other professional rescue teams such as full-time fire brigade and voluntary fire brigade can refer to the implementation.
