1 Foreword

XF/T 87-2023 was issued by Ministry of Emergency Management on 19 July 2023 and has been in force since 19 October 2023.

It replaces the earlier edition XF 87-1994.

The XF/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the product classification and model, technical requirements, test methods, inspection rules, marking, packaging, transportation and storage requirements for fire-resistant particleboards. This standard applies to particleboards with fire protection performance requirements for interior decoration, furniture, and partitions in buildings.

XF/T 87-2023 carries no ICS number and no Chinese Standard Classification code.
