1 Foreword

XF/T 91-2023 was issued by Ministry of Emergency Management on 19 July 2023 and has been in force since 19 October 2023.

It replaces the earlier edition XF 91-1995.

The XF/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the terms and definitions of flame-retardant tarpaulins, and stipulates product types and specifications, requirements, test methods, inspection rules, and requirements for marking, packaging, transportation and storage. This standard applies to flame-retardant tarpaulins made of vinylon fiber, nylon fiber, polyester fiber, glass fiber and other materials as the base fabric and coated with rubber or resin on one or both sides.
