What this standard covers

This standard specifies the structural type, basic parameters, technical requirements, test methods, inspection rules, marking, packaging, transportation, storage and quality requirements of fast digital thermometers for smelting. This standard applies to thermometers that use consumable fast thermocouples as temperature measurement elements for smelting.

Document data

International classification (ICS): 17.200.20.

Chinese classification (CCS): N11.

Estimated length of the Chinese original: 12,154 words.
