What this standard covers

This standard specifies the infrared absorption method for the determination of carbon content. This standard applies to silicon aluminum, silicon, barium alloy carbon content. Measuring range (mass fraction): 0. 10% ~ 0. 5 0%.

Document data

International classification (ICS): 77.100.

Chinese classification (CCS): H11.

Estimated length of the Chinese original: 6,616 words.

Supersedes the earlier edition YB/T 178.6-2000.
