What this standard covers

This Standard specifies the sodium (potassium) spectroscopic and photometric determination of manganese oxide content by flame atomic absorption spectrometry. This Standard applies to the determination of continuous casting protective slag manganese oxide

Document data

International classification (ICS): 77.140.99.

Chinese classification (CCS): H33.

Estimated length of the Chinese original: 10,173 words.

Supersedes the earlier edition YB/T 190.11-2001.
