What this standard covers

This Standard specifies the combustion gas volumetric method and infrared absorption method for determination of continuous casting of the total carbon content of slag. This section applies to continuous casting slag determination of total carbon content.

Document data

International classification (ICS): 73.080.

Chinese classification (CCS): H33.

Estimated length of the Chinese original: 9,972 words.

Supersedes the earlier edition YB/T 190.7-2001.
