What this standard covers

This standard specifies the classification and grades, technical requirements, test methods, inspection rules, packaging, marking, transportation, storage and quality certificates of coarse seam pastes for submerged arc furnaces. This standard is applicable to the coarse gap paste used to fill the gap between the carbon block and the furnace shell and between the carbon blocks when laying the lining of the ore furnace.

Document data

International classification (ICS): 59.100.20.

Chinese classification (CCS): Q52.

Estimated length of the Chinese original: 4,454 words.

Supersedes the earlier edition YB 2807-1991.
