1 Foreword

YB/T 376.3-2004 was issued by Ministry of Industry and Information Technology on 17 June 2004 and has been in force since 1 November 2004.

The YB/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 8 pages in English translation.

2 Scope Preview

This standard specifies: Systems and Software reliability measure formula, system and software to provide a unified demand side, the evaluator, the supplier reliability metrics. This standard applies to: a reliability requirements systems and software reliability testing and metrics.

YB/T 376.3-2004 falls under ICS 81.080, in the field of glass and ceramics industries.

This catalogue holds 71 other YB/T standards in that field.

In this catalogue, YB/T standards carry edition years from 1980 to 2026.

3 About this standard

Sector: Ferrous Metallurgy Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 8 pages (approximate)

Chinese original: about 5,532 characters

4 Related standards

Standards on related subjects:

GB/T 2999-2025 - Refractory materials - Determination of bulk density of granular materials

GB/T 3001-2017 - Refractory products -- Determination of modulus of rupture at ambient temperature

GB/T 2997-2015 - Test method for bulk density, apparent porosity and true porosity of dense shaped refractory products

YB/T 4198-2025 - Dimensions of refractory bricks for ladle

YB/T 118-2020 - Refractory materials Test method for pore size distribution

YB/T 370-2016 - Refractoies. Determination of refractoriness under load(non-differential, with rising temperature)

5 Classification and status

International classification (ICS): 81.080

Chinese Standard Classification (CCS): Q 40

Prefix YB/T: recommended standard.
