What this standard covers

This standard specifies the ordering content, classification, size, shape, weight, and allowable deviation, technical requirements, test methods, inspection rules, packaging, marking, and quality certificates of cold-formed steel for guardrail corrugated beams. This standard applies to cold-formed steel for guardrail corrugated beams produced on continuous roller cold-bending units with cold-rolled or hot-rolled steel strips that can be deformed by cold processing. This standard does not apply to cold-formed steel produced by stamping, bending, etc.

Document data

International classification (ICS): 77.140.70.

Chinese classification (CCS): H44.

Estimated length of the Chinese original: 18,124 words.
