What this standard covers

This standard specifies the erosion resistance of refractories molten cryolite electrolyte theory test methods, equipment, samples, experimental procedures, results calculation and so on. This standard applies to the determination of aluminum reduction cell refractory erosion of molten cryolite electrolyte performance.

Document data

International classification (ICS): 81.080.

Chinese classification (CCS): Q40.

Estimated length of the Chinese original: 11,190 words.
