What this standard covers

This standard specifies the terms and definitions, grades, technical requirements, test methods, inspection rules, packaging, marking, transportation, storage, and quality certificate for sintered corundum. This standard applies to sintered corundum produced primarily from industrial alumina through high-temperature calcination.

Document data

International classification (ICS): 73.080.

Chinese classification (CCS): D52.

Supersedes the earlier edition YB/T 4216-2010.
