What this standard covers

This standard specifies the terms and definitions, classification and codes, ordering contents, dimensions, appearance, weight, technical requirements, inspection and testing, packaging, marking and quality certificates of continuous hot-coated steel plates and steel strips for construction. This standard is applicable to magnesium-containing coatings with a thickness of 0.20mm ~ 8.0mm, other coatings with a thickness of 0.20mm ~ 6.0mm, and continuous hot-coated steel plates and steel strips with a width not exceeding 2080mm. It is used for non-required applications other than automobiles and home appliances. Various uses for ultra-deep stamping deformation.

Document data

International classification (ICS): 77.140.50.

Chinese classification (CCS): H46.

Estimated length of the Chinese original: 24,226 words.

Supersedes the earlier edition YB/T 4457-2015.
