### What this standard covers

This Standard specifies the terms and definitions of high-purity ferrosilicon, grades representation, technical requirements, test methods, inspection rules, packaging, storage and transportation, marking and certification. This Standard applies to high-purity ferrosilicon steelmaking, casting and precision metallurgical purposes.

### Document data

International classification (ICS): 77.100.

Chinese classification (CCS): H42.

Estimated length of the Chinese original: 7,736 words.
