What this standard covers

This standard is applicable to the anchorage design, installation, construction and acceptance of bolts with large diameter of 36 ~ 150mm with reinforced concrete as base material. It is not applicable to lightweight aggregate concrete. In addition to the provisions of this standard, the post-anchoring bolt technology of the metallurgical industry should conform to the relevant national standards.

Document data

International classification (ICS): 77.180.

Chinese classification (CCS): P73.

Estimated length of the Chinese original: 56,585 words.
