What this standard covers

This standard specifies the terms and definitions, grades, technical requirements, test methods, inspection rules, packaging, marking, storage and quality certificates of high purity kyanite. This standard is applicable to the high-purity kyanite obtained through the mineral selection process, mainly used for refractory materials, industrial ceramics and other products of raw materials.

Document data

International classification (ICS): 73.080.

Chinese classification (CCS): D52.

Estimated length of the Chinese original: 6,653 words.
