What this standard covers

This standard specifies the use of infrared absorption method for the determination of carbon content. This section applies to the determination of carbon nitride ferrosilicon content, the determination of the range (mass fraction): 0.025% ~ 0.400%.

Document data

International classification (ICS): 77.100.

Chinese classification (CCS): H11.

Estimated length of the Chinese original: 6,681 words.
