What this standard covers

This standard specifies the terms and definitions, technical requirements, test methods, inspection rules, packaging, marking, storage, transportation and quality certificate of plate-shaped carbon/carbon composite material for ingot furnace. This standard applies to the growth of polycrystalline silicon ingot furnace with a plate structure carbon/carbon composite materials.

Document data

International classification (ICS): 59.100.20.

Chinese classification (CCS): Q53.

Estimated length of the Chinese original: 6,639 words.
