What this standard covers

This standard specifies the terms and definitions, technical requirements, test methods, inspection rules, packaging, marking, storage, transportation and quality certificate of C/C composite heating element for Czochralski silicon single crystal furnace. This standard is applicable to carbon/carbon composite heating element used in Czochralski silicon crystal furnace for PV industry, and also suitable for heating elements of other high temperature vacuum furnace and atmosphere furnace with carbon/carbon composite material.

Document data

International classification (ICS): 59.100.20.

Chinese classification (CCS): Q53.

Estimated length of the Chinese original: 7,772 words.
