What this standard covers

This standard specifies the terms and definitions, symbols and descriptions, classification and code of the profiled steel components, ordering content, dimensions and tolerances, technical requirements, test methods, inspection rules, packaging, marking and quality certificates, transportation and storage. This standard is applicable to profiled steel members for construction steel structures. For other fields, profiled steel members, profiled cast steel joints and stainless steel components can be used as reference.

Document data

International classification (ICS): 77.140.60.

Chinese classification (CCS): H44.

Estimated length of the Chinese original: 19,158 words.
