What this standard covers

This standard specifies the technical requirements, test methods, inspection rules, packaging, marking, storage, transportation and quality certificates for silicon carbide carbon bricks used in submerged arc furnaces. This standard is applicable to carbon bricks used in the lining and tapping of iron ore furnaces made of high temperature electric calcined anthracite, silicon carbide and graphite.

Document data

International classification (ICS): 59.100.20.

Chinese classification (CCS): Q52.

Estimated length of the Chinese original: 5,590 words.
