What this standard covers

This standard specifies the grades, technical requirements, test methods, quality assessment procedures, packaging, marking, transportation, storage and quality certificates of aluminum-silicon lightweight spray coatings. This standard is applicable to lightweight refractory spray coatings made of aluminum-silicon lightweight aggregates. It is mainly used for thermal insulation of various industrial furnaces and other thermal equipment.

Document data

International classification (ICS): 81.080.

Chinese classification (CCS): Q46.

Estimated length of the Chinese original: 4,458 words.
