What this standard covers

This standard specifies methods for measuring the texture of steel using electron backscatter diffraction (EBSD). This standard applies to electron backscatter diffraction (EBSD) analysis of steel texture. Other polycrystalline material texture measurements can also be referred to this standard.

Document data

International classification (ICS): 77.040.99.

Chinese classification (CCS): H24.

Estimated length of the Chinese original: 6,615 words.
