What this standard covers

This standard specifies the classification and grade representation method, size, shape, weight, technical requirements, test methods, inspection rules, packaging, marking and quality certificate of fatigue-resistant hot-rolled steel sheets and strips for wheels. This standard is applicable to the manufacture of hot-rolled steel strips with a good fatigue resistance and rim thickness of 1.6 mm to 25.4 mm and shear steel plates (hereinafter referred to as steel plates and steel strips).

Document data

International classification (ICS): 77.140.50.

Chinese classification (CCS): H46.
