### What this standard covers

This standard specifies the technical specifications of the intelligent dispatching system for black metallurgical open pit mine engineering, including the system hardware and software composition and working methods, mobile vehicle terminals, monitoring centers, communication methods and communication protocols, and system training. This standard applies to the design, development and application of the black metallurgical open pit engineering vehicle dispatching system.

### Document data

International classification (ICS): 73.060.01.

Chinese classification (CCS): D30.

Estimated length of the Chinese original: 7,759 words.
