What this standard covers

This standard specifies the terms and definitions, system composition, technical requirements, packaging, transportation, acceptance, performance testing, operation and maintenance of sensible heat utilization of coke oven risers. This standard is applicable to new construction and reconstruction projects of steel joint ventures and independent coking enterprises that use geometric riser heat exchangers to recover coke oven risers and waste gas.

Document data

International classification (ICS): 77.010.

Chinese classification (CCS): H04.

Estimated length of the Chinese original: 7,785 words.
