1 Foreword

YB/T 4813-2020 was issued by Ministry of Industry and Information Technology on 16 April 2020 and has been in force since 1 October 2020.

The YB/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 8 pages in English translation.

2 Scope Preview

This standard specifies the terms and definitions, general requirements, energy-saving technical requirements, detection and control systems, energy-saving measures and energy-saving management, energy-saving operation, safety and environmental protection, and operation and maintenance of carbon enterprises' kneading-molding process. This standard is applicable to the kneading-molding process of carbon enterprises.

YB/T 4813-2020 falls under ICS 77.010, in the field of metallurgy.

This catalogue holds 971 other YB/T standards in that field.

In this catalogue, YB/T standards carry edition years from 1980 to 2026.

3 About this standard

Sector: Ferrous Metallurgy Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 8 pages (approximate)

Chinese original: about 6,639 characters

4 Related standards

Standards on related subjects:

GB/T 7729-2021 - Chemical analysis of metallurgical products-General rule for spectrophotometric methods

GB/T 33785-2017 - Specification for high radiative coating energy-saving technology

GB/T 20066-2006 - Steel and iron -- Sampling and preparation of samples for the determination of chemical composition

YB/T 4815-2020 - Energy consumption limit per unit product of hot dip galvanized steel wire

YB/T 4814-2020 - Technical specification for energy saving of graphitization process in carbon enterprises

YB/T 4804-2020 - Specification for Advanced Planning and Scheduling System (APS) for the Steel Industry

5 Classification and status

International classification (ICS): 77.010

Chinese Standard Classification (CCS): H 04

Prefix YB/T: recommended standard.
