What this standard covers

This standard specifies the terms and definitions, evaluation principles and methods, evaluation requirements, and life cycle evaluation report preparation methods for green design products of steel plates for pressure vessels. This standard is applicable to the evaluation of green design products for pressure vessel steel plates produced by blast furnace steelmaking, steelmaking, hot rolling and other processes.

Document data

International classification (ICS): 77-010.

Chinese classification (CCS): H04.

Estimated length of the Chinese original: 18,180 words.
