What this standard covers

This standard specifies the technical requirements, test methods, inspection rules, packaging, marking, transportation, and quality certificates for coal tar. This standard applies to high-temperature coal tar obtained from the condensation of coal gas during high-temperature coking, used as raw material for further processing into naphthalene, wash oil, anthracene oil, or carbon black, or medium- and low-temperature coal tar obtained from the condensation of coal gas during medium- and low-temperature pyrolysis.

Document data

International classification (ICS): 71.080.

Chinese classification (CCS): G18.

Supersedes the earlier edition YB/T 5075-2010.
