What this standard covers

This standard specifies the terms and definitions of energy-saving supervision of carbon product manufacturers, the content and methods of supervision, and the way of supervision work procedures. This standard is applicable to the energy-saving supervision of enterprises that use petroleum coke, pitch coke, coal tar pitch, anthracite, etc. as raw materials to produce aluminum prebaked anodes, graphite electrodes, carbon electrodes, carbon blocks and other carbon products. The implementation of energy-saving supervision on enterprises that produce carbon products from other raw materials can be implemented by reference.

Document data

International classification (ICS): 77.010.

Chinese classification (CCS): H04.

Estimated length of the Chinese original: 32,356 words.
