What this standard covers

This standard specifies the definition, classification and marking, ordering content, materials, technical requirements, test methods, inspection rules, quality assurance period, packaging, storage, transportation and quality certificate of automobile brake push-pull cables. This standard is applicable to the push-pull cable cores used in automobile gear shift detent assemblies and brake detent assemblies. Push-pull cable cores used in other control assemblies such as construction machinery, rail transit, yachts, ships, and aviation vehicles can also refer to this standard.
