What this standard covers

This standard specifies the technical requirements for design, type selection, inspection and testing of mechanical molten steel vacuum degassing system. This standard applies to the engineering design and transformation of the mechanical vacuum degassing system for molten steel in VD, VOD, and RH furnaces in the secondary refining process of iron and steel.

Document data

International classification (ICS): 77.010.

Chinese classification (CCS): H04.

Estimated length of the Chinese original: 7,749 words.
