What this standard covers

This standard specifies the terms and definitions, composition, classification, model, basic parameters, technical requirements, safety and environmental protection requirements, test methods, inspection rules, signs, packaging, transportation and storage of continuous casting slab flame cutting machines. This document is applicable to the flame cutting machine for cutting continuous casting slabs with industrial gas as the gas medium. It can also be configured as an off-line flame cutting machine for cutting short cut-to-length blanks, cold blanks, waste blanks, etc. Other related flame cutting machines can also be used as a reference.
